Hot Spot Quick Start Guide

## Step 1. Power On Hot Spot

1. Flip the power switch to the "On" position

2. Wait until the network light turns solid green, and wifi light turns solid blue.

Step 2. Connect To Your Hot Spot

1. Using your device (Chromebook, laptop, tablet etc) search for available Wifi networks.
   Wi-Fi

2. Select the Wifi that starts with "T-Mobile Broadband..."

3. Enter the 8-digit password written on the back of your hot spot box.

4. Click **Connect.**

   Make sure you turn off your hot spot when you're done and keep it charged!
